

# 3-D Mother's Day Card

Mother's Day Craft  
7-11 year-olds

**Step 1:** Fold the card in half along the line.

**Step 2:** Cut out all your hearts. You should have 4 large hearts and 2 small hearts.

**Step 3:** Fold the large hearts in half. Add glue to one-half of one of the hearts. Place another heart half on the glue to attach them together. Repeat for all 4 hearts to make a 3-D heart.

**Step 4:** Add glue on the back of the 3D heart shape and glue it on the inside middle crease of your Mother's Day card.

**Step 5:** Decorate your card with the smaller hearts. You can even color the front and inside of your card. Leave a message for your mom, such as: "Lots of love to you on Mother's Day!" or "My heart is bursting with love for you, Mom!"
